

Ministry of Education

Second Month Exam

First Semester (2023 /2024)

Name: _____

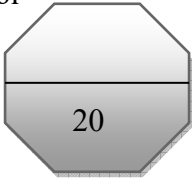

Ali Reda Alrekabi School

Time: 1 hour

Class: 7th Grade

Class: A, B, C

Question 1: Read the following text then answer the questions: (6 Marks)

Man’s machines, cars, planes, trains and computers emit carbon dioxide which doesn't allow the heat from the sun to leave. When there is too much carbon dioxide in the atmosphere, the Earth’s temperature goes up. This is called “global warming.”
We must slow down global warming. Here are simple things we can do:
A: Walk or take the bus to school.
B. Reuse and recycle paper, glass, plastic and aluminum.
c. Turn off the water while you brush your teeth.
d. Turn off the lights, the heating, the air conditioning, the TV or computers when you don’t use them.

1. What is the main cause of global warming?

2. Mention two things we can do to slow down global warming:

1: _____

2: _____

Question Two: Write the correct word for each definition: (4 Marks)

| | | | |
|-------------|-------|-------|----------------|
| environment | flood | Earth | Carbon dioxide |
|-------------|-------|-------|----------------|
