Note: Please answer all the following questions: -

Q.1. Read the text and answer the questions. (20 Marks)

BY 2030

A) What will _ be like?

By 2030, people will buy over thirty percent of things online and, in a lot of countries, drones will deliver most of them in less than half an hour. There will be some real shops too, of course, but many of them won't have checkouts anymore. You will be able to take the things that you need and you will automatically pay and get a receipt later.

BY 2040

B) How will _ change?

In 2040, most countries will use digital money. There won't be any paper notes or coins and we will use smartphones or smartwatches to pay for everything. Fortunately, their batteries will be better, so we won't need to carry a charger with us all the time.

BY 2050

C) Where will we _ ?

By 2050, the population of the world will be 9.6 billion and seventy-five percent of people will live in cities, often in huge smart apartment buildings, over ten kilometres tall. Virtual reality will be a big part of our everyday lives. For example, most people in cities won't need to leave their homes. Houses won't even need windows – virtual windows will look completely real.

BY 2055

D) How will we look after our _ ?

Over the next fifty years, we will use technology to analyse our health all day and every day. Our clothes will have tiny health trackers which will contact our doctor when there are any problems. 3D printers will be able to make new body parts such as skin or even a heart.

Q:1) Read and write True (T) or False (F)?

- A) People will buy less than ten percent of things online.
- B) Drones will deliver things in less than half an hour.
