1. Read the following text carefully, and then answer all the questions that follow. Your answer should be based on the text.

Ten-year-old Adeeb al-Balooshi, from Dubai, is going to travel to seven countries on a tour **which** has been organised and funded by Sheikh Hamdan bin Mohammad, Crown Prince of Dubai .

The boy caught Sheikh Hamdan's attention with his invention - a prosthetic limb for his father. The Sheikh has taken a special interest in the boy, and hopes the tour that he is sponsoring for Adeeb will give the young inventor more self-confidence and inspire other young Emirati inventors.

Adeeb got the idea for a special kind of prosthetic leg while he was at the beach with his family. His father, who wears an artificial leg, could not swim in the sea as he could not risk getting his leg wet. This inspired Adeeb to invent a waterproof prosthetic leg.

Adeeb is going to visit the USA, France, the UK, Ireland, Belgium, Italy and Germany, where he will be staying with relatives. However, while he is in Germany, Adeeb will not be spending all his time sightseeing. He will be working with a specialist doctor to build the appendage. He will also be attending "catching" a course on prosthetics and learning about different kinds of medical apparatus.

Adeeb has invented several other devices, including a tiny cleaning robot and a heart monitor, Which is attached to a car seat belt. In the case of an emergency, rescue services and the driver's family will be automatically connected with the driver through this special checking device.

He has also invented a fireproof helmet. This special equipment, which has a built-in camera system, will help rescue workers in emergencies. It is for these reasons that Adeeb rightly deserves his reputation as one of the youngest inventors in the world.

#### QUESTION ONE ( A 1 )

1. The article mentions different devices that Adeeb invented. Write down two of these devices.

2. Sheikh Hamdan bin Mohammad offered Adeeb a world tour for two causes. Write these two causes.

3. Quote the sentence which indicates that Adeeb isn't visiting Europe for tourism only.

4. What does the underlined word " which" refer to? \_\_\_\_\_

5. What does the suffix *-proof* mean(*waterproof*, line 8; *fireproof*; line 16)? \_\_\_\_\_

6. According to the writer, Sheikh Hamdan motivated Adeeb to achieve further success. suggest three ways to motivate young people to develop their abilities.

7. Adeeb Al-Balosshi invented a heart monitor which was built into the seat belt. Think of this statement, in two sentences, write your point of view.

II. Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answer should be based on the text.

My name is Fatima Musa and I have worked as an interpreter for five years. Many students have emailed me about my work because they want to know what it would be like to do my job. So here is my reply.

I have always been fond of languages. My father worked in many different countries when I was young and we usually travelled with him. When we visited a country, I always wanted to learn the language. At school I was very good at English. Therefore, I decided on a career as an interpreter.

My job now involves going to important conferences and seminars around the world. When a person speaks in English at a conference, I listen to what they say through headphones. I then translate into Arabic while the speaker is talking. I give the translation through headphones to other people at the meeting. This means that anyone in the room who speaks Arabic can understand what people are saying.

Is it an easy job? Not at all. English is not the same in all English-speaking countries. For example, the English words that are used in India are sometimes different to the words that people use in the UK, the USA or Australia. As well as knowing regional English, you also need to know a lot of specialist language. Some of the words that are used to talk about business, science or law, for example, make it almost a different language!

Unless you have a language degree, you will not be able to become an interpreter. Provided that you have a postgraduate qualification, you will probably get a job as an interpreter quite quickly. If you get an interview for a job, you will need to show that you have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time. If you are successful, it is a secure and rewarding job. You will probably need to travel a lot, but that is not a problem as long as you enjoy visiting other countries.

It is a very responsible job. I am aware that if I translate things badly, it could affect an important law or trade agreement between countries. However, you get a huge feeling of satisfaction when you know that people understand everything that you translate

**QUESTION ONE ( A 2 )**

1. Many things encouraged Fatima to decide on a career as an interpreter .Write down two of them .

---

2. You have to show some skills in an interview for the job of an interpreter . Write down two of these skills.

#### 2. The advantages and disadvantages of online shopping

Most people now use the Internet on computers, smartphones and tablets to do a variety of tasks. For many people, these tasks include online shopping. From shopping for groceries to all kinds of clothes shopping, consumers are finding this the easiest way to get what they need, literally at the touch of a button. However, there are numerous and important disadvantages to shopping in this way.

Although using the Internet to shop is usually fairly easy, and there is often greater variety available, it is always a risk because you cannot try on or see in detail the item you wish to buy. In fact, the immediate 'convenience' of shopping in this way can end up being an inconvenience if the item is faulty or does not fit, or is just not what the customer wanted. It is true that the prices are better when you shop online, but, while it might be cheaper, there is a distinct disadvantage because you have to wait for the delivery of the purchases. Some people might prefer not to have any personal contact while shopping online, but it can save time in the end since there are always assistants to help with queries you might have during the transaction. In addition to this, there is the issue of Internet payment security; however, recently this has improved a lot.

The Internet has indeed given us a wider choice as consumers, as well as made some aspects of shopping more pleasant and convenient. However, it is nearly impossible, in my opinion, to forget the disadvantages we experience from time to time, since these can and do influence the way in which we choose to shop.

3.

Charles Hotel, Paris

I recently stayed at this hotel for a few nights during a conference, and it did not entirely live up to expectations. On its website it is billed as 'stylish, state-of-the-art and chic', which was true, but the service was not quite as high a standard as it could have been.

Since I arrived fairly late in the evening my first night, there was nobody at Reception to check me into my room. However, someone came to help me immediately after I rang the bell on the desk. Throughout my stay, I experienced some negative aspects of service, such as a lack of towels and delayed room service, but I was met with excellent responses to requests made in the restaurant, as well as an atmosphere of general helpfulness and politeness. I was happy to deal with the few oversights as I know that hotel staff work hard for long hours.

I would very much like to visit Paris again, and I enjoyed the view, architecture and atmosphere of the hotel very much. The service could be improved, but it didn't detract from a fairly pleasant stay. I recommend this hotel to anyone interested in Parisian architecture.

#### 4. Worldwide transport in the future

It is of course difficult to say exactly what transportation will look like in the future, because of the infrastructural changes that are happening constantly at the moment. To me, it seems that transport may well have changed a lot in one hundred years' time.

Perhaps there will be no more private transport by 2115 CE. It is possible that public transport will have improved so much that no one will need their own cars. We might all be zooming around in ecologically-sound electric buses and trams that will take us to our destinations smoothly!

In order to get to other countries, we will be taking airships, which will be like aeroplanes but with more facilities available. It will be possible to travel to the other side of the world in much less time, because these airships will race around at a far greater velocity.

Finally, modes of transport are always changing, depending on many different factors, but one thing is certain; we will still be travelling the whole world! We might even be able to experience weightlessness by travelling to space!

مع كل الامنيات بالتوفيق للجميع
