C.	
C. D.	To protect data from being damaged or lost To keep RAM from becoming full
C. D.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that
C. D.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty.
C. D. 5.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. قي الاكسل, دالة تقوم بعد جميع الخلايا الغير فارغة.
C. D.5.A.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. مني الاكسل, دالة تقوم بعد جميع الخلايا الغير فارغة. COUNTE function
C. D.5.A. B.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNT function
C. D. 5. A. B. C.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. منا الاكسل, دالة تقوم بعد جميع الخلايا الغير فارغة. COUNTE function COUNT function COUNTA function
C. D. 5. A. B. C.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNT function
C.D.5.A.B.C.D.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNT function COUNTA function COUNTB function COUNTB function
C.D.5.A.B.C.D.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNTA function COUNTA function COUNTB function COUNTB function COUNTB function
C. D.D.A. B.C. D.6.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNTA function COUNTB function
C. D.D.A. B.C. D.6.A.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNT function COUNTA function COUNTB function
C. D.5.A. B.C. D.6.A. B.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNT function COUNTA function COUNTA function COUNTB function
C. D.D.A. B.C. D.A. B.C. C.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNT function COUNTA function COUNTB function
C. D.D.A. B.C. D.A. B.C. C.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNT function COUNTA function COUNTA function COUNTB function
C. D.5.A. B.C. D.6.D.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNT function COUNTA function COUNTB function
C. D.5.A. B.C. D.6.D.	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNTA function COUNTA function COUNTB function
 C. D. 5. A. B. C. D. A. B. C. D. 7. 	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNTA function COUNTA function COUNTB function COUNTB function COUNTB function COUNTB function COUNTB function Which of the following is a correct cell address in Excel? الاكسل, دالة صحيح بخصوص عنوان خلية في تطبيق اكسل COUNTB function Row1 Cell1 1A A1 When you type a lot of text in capital letters it is better to use
 C. D. 5. A. B. C. D. 6. A. B. C. D. T. A. 	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNT function COUNTA function COUNTB function COUNTB function COUNTB function COUNTB function Which of the following is a correct cell address in Excel? الكيسل من الخيارات التالية صحيح بخصوص عنوان خلية في تطبيق اكسل Cell1 1A A1 When you type a lot of text in capital letters it is better to use
 C. D. A. B. C. D. A. B. C. D. T. A. B. C. C. 	To protect data from being damaged or lost To keep RAM from becoming full In Excel, the function, provides a convenient way to count the number of cells that are not empty. COUNTE function COUNTE function COUNTA function COUNTA function COUNTB function COUNTB function COUNTB function COUNTB function Which of the following is a correct cell address in Excel? Rowl Cell1 1A A1 When you type a lot of text in capital letters it is better to use Which of the following is a correct cell address in Excel?

8. (CPU) stands For: CPU هي اختصار ل A. Central Programming Unit. B. Categorized Program Unit. C. Central Processing Unit.
D. Central Program Uniform.
