

READING : For questions (1 - 15), read the following texts carefully , and then choose the correct answer from A , B , C or D to complete the sentence below each text .

A) a laboratory
B) a set of scales
C) sulphuric acid
D) founder

5) One of the many things which Ibn Bassal achieved was *A Book of Agriculture*. The book consisted of sixteen chapters which explain how best to grow trees, fruit and vegetables, as well as herbs and sweet-smelling flowers; perhaps the most famous chapter of all was the one that described how to treat different types of soil. Ibn Bassal also worked out how to irrigate the land by finding underground water and digging wells. He designed water pumps and irrigation systems. All of these things were passed on through his writing.

-Which word in the text means (supply land with water)

- A) explain B) treat C) grow D) irrigate

6) A new cancer drug is being trialled in Plymouth, UK, which doctors hope will extend the lives of cancer patients and reduce their symptoms overnight. It is taken as a single pill every morning, and so far patients have shown none of the usual side effects such as the sickness and hair loss that are experienced when undergoing other forms of cancer treatment. The new treatment works by blocking a protein which causes cancerous cells to grow. It will improve patients' life expectancy and quality of life much more quickly than any other treatment. The patients were interviewed a year after starting the treatment and are fit and well, saying that they are definitely going to continue the trial. They have every reason to believe the new drug is going to work. Doctors at Plymouth Hospital hope that it will help patients from all over the world.

-Which sentence shows the way that the new cancer drug works ?

- A) It is taken as a single pill every morning, and so far patients have shown none of the usual side effects such as the sickness and hair loss that are experienced when undergoing other forms of cancer treatment.
B) The new treatment works by blocking a protein which causes cancerous cells to grow.
C) It will improve patients' life expectancy and quality of life much more quickly than any other treatment.
D) Doctors at Plymouth Hospital hope that it will help patients from all over the world.

7) At a surgery in London, 70 per cent of patients who were offered the choice between a herbal or a conventional medicine for common complaints such as insomnia, arthritis and migraines chose the herbal remedy. Fifty per cent of patients then said that the treatment helped. One doctor said, "I now consider homoeopathy to be a viable option for many different conditions, including anxiety, depression and certain allergies. It provides another option when conventional medicine does not address the problem adequately."

-The underlined pronoun (It) refers to

- A) anxiety B) homoeopathy
C) a surgery D) conventional medicine

8) Many people are excited about the 'Internet of Things'. For them, a dream is coming true. They say that our lives will be easier and more comfortable. However, others are not so sure. They want to keep control of their own lives and their own things. In addition, they wonder what would happen if criminals managed to access their passwords and security settings. The dream could easily become a nightmare!

-The underlined word (others) refers to ...

- A) passwords B) criminals
C) security settings D) other people

9) In just a few years' time, experts say that billions of machines will be connected to each other and to the Internet. As a consequence, computers will increasingly run our lives for us. For example, your fridge will know when you need more milk and add it to your online shopping list. Your windows will close if it is likely to rain. Your watch will record your heart rate and email your doctor. Your sofa will tell you when you need to stand up and get some exercise!

-Which sentence mentions the thing that helps people to keep fit?

- A) Your watch will record your heart rate and email your doctor.
- B) Your windows will close if it is likely to rain.
- C) Your sofa will tell you when you need to stand up and get some exercise!
- D) For example, your fridge will know when you need more milk and add it to your online shopping list.

10) Scientists have already developed brain implants that improve vision or allow disabled people to use their thoughts in order to control prosthetic limbs like arms, legs or hands, or operate a wheelchair. In 2012 CE, research on monkeys showed that a brain implant improved their decision-making abilities. How will humans benefit from this research? Scientists hope to develop a similar device to help people who have been affected by brain damage, which could be caused by dementia, a stroke or other brain injuries.

-According to the above text, which one is NOT a reason of brain damages?

- A) a stroke
- B) brain implants
- C) brain injuries
- D) dementia

11) The city will run entirely on renewable energy sources. It is built on an advanced energy grid which monitors exactly how much electricity is being used by every outlet in the complex. Energy will be provided by solar power and wind farms, and there are also plans to build the world's largest hydrogen plant. A desalination plant will be used to provide the city's water, with 80% of water used being recycled. Biological waste will be used as an energy source too, and industrial waste will be recycled.

-.....will supply the city with clean energy.

- A) Hydrogen plant and desalination plant
- B) Industrial waste and biological waste
- C) Wind farms and solar energy
- D) Water and a grid

12) Unfortunately, Sorensen was only taking part in trials, and the equipment is not ready for general use yet. He was only allowed to wear it for a month, for safety reasons. So now he has his old artificial hand back. However, he hopes that soon he will be wearing the new type of hand again. He is looking forward to the time when similar artificial limbs are available for the thousands of people who need them. He will have helped to transform their lives.

-Which word is the opposite of (natural) ?

- A) available
- B) similar
- C) general
- D) artificial

13) The first PC (personal computer) was produced in 1974 CE, so people could buy computers to use at home. In 1983 CE, people could buy a laptop for the first time. Then, in 1990 CE, the British scientist Tim Berners-Lee developed the World Wide Web. It was not until 2007 CE that the first smartphones appeared. Today, most people use their mobile phones every day.

It was inwhen the Internet was developed.

- A) 1983 B) 2007 C) 1974 D) 1990

14) Most young people communicate through social media, by which they send each other photos and messages via the Internet. Some students like to send messages that are under 140 letters for anyone to read. Teachers can ask students to summarise information about what they have learnt in class in the same way. If students learn to summarise quickly, they will be able to use this skill in future.

Which skill can be taught to students and used by them ?

- A) summarizing B) communicating by social media
C) sending messages D) sending photos

15) In 2010 CE, neuroscientists confirmed that it was possible to communicate with some patients in a coma, by using a special brain scanner called an MRI. They suggested that, in the future, more meaningful dialogue with patients in a coma would be possible. Two years later, it has finally happened. The scanner, used on a man who has been in a coma for more than twelve years, proves that he has a conscious, thinking mind – a fact that had previously been disputed by many. Doctors plan to use similar brain-scanning techniques in the future to find out whether patients are in pain, or what they would like to be done in order to improve their quality of life.

-Which word means (a medical instrument which produces images)

- A) coma B) quality C) mind D) scanner

VOCABULARY : For questions (16 -28) , choose the correct answer from A , B , C or D to complete each of the following sentences.

16) The old man has in his fingers, so he finds it difficult to write.
